

Save Black Lake Management Sub-Committee
Meeting Notes
January 9, 2012 6:30 PM

Present: Vernon Bonfield; Deb Wallace; Nita Sell, Gail Schaller
Greg Lee, Lake Stintzi, Thu Ngo, Tim Erickson

Deb discussed the budget for 2012 and 2013. SBL was awarded \$50,000 of a \$100,000 grant in 2012, the first year of a 2-year grant. We should go for the remaining \$50,000 this year in order to continue operations. Once a formal management district (whether LMD or SUD) is in place, ongoing funding will come from property owners by way of the County Assessor's Office beginning in 2014.

On the expense side of the budget, Deb will contact Harry for a quote for biologist services. Further expenses to be pinned down include insurance and legal services.

The group discussed potential formulas to compute the fees to be assessed to homeowners, government entities, and commercial enterprises located along the lakefront. Fees will likely be based on lakefront footage, dwelling units, boater days and swimmer days. The group agreed that the fee structure should be kept flexible to allow for additional development or lake access over time.

Nita will find out what information will be needed to write a petition for the next meeting.

The next meeting of this subcommittee is on January 23, 2013, with another meeting two weeks later on February 6th.

The meeting was adjourned at 8:30 PM.
